A khothaletsa likolo ho kenya tshetsong lihlopha tsa thakaneng ho hlola

We are that solution we desire

When life throws challenges at us we often feel desperate for a lasting solution that will help us never to find ourselves in the same predicament next time. Out of destitution we look all over for what we think would be a solution. We make a mistake of looking for a remedy that is often foreign to our belief, instead of being a solution to the problem, what we adopt turns out to exacerbate the already turmoil situation. This is because we seek solutions from people and we want their validation to a problem they know nothing about, they also don't even understand the outcome we want

out of the problem or the challenge. The piece of advice they give is just opinion and purely reactional which may lead to more trouble. However, if we can try and study the situation ourselves without the influence of others, find out what it means to us, find the outcome we want out of it, is it something we can solve ourselves or does it want a professional intervention. Then try and go for a solution we know we need. We are the ones who know what we want and we are the solution we are looking for; we are the happiness we seek.

Teboho Matjeka

Senators Tour Key Sites of Lesotho Highlands Water Project

Maseru, 16th September 2024: The Honourable Members of the Senate of the Kingdom of Lesotho embarked on a four-day high level oversight visit to the Lesotho Highlands Water Project (LHWP sites) from the 10th to the 13th September 2024, at the invitation of the Lesotho Highlands Development (LHDA) Chief Executive; Mr Tente Tente.

The Senators representation was made up of the President of the House; Honourable 'Mamonaheng Mokitimi, accompanied by the Vice President; Honourable Tsukutlane Au and a delegation of twenty Senate members.

In line with its strategy to engage with all key stakeholders and disseminate information, the LHDA hosted the Honourable Senators on a guided Project tour, visiting facilities at Katse, Polihali and 'Muela which also included a visit of the rangelands and wetlands in the Polihali catchment area. The purpose of the visit was to appraise Members of Senate on Project progress, milestones and challenges encountered in the implemen-

tation of Phase I and Phase II of the LHWP.

As part of its mandate, the LHDA is responsible for fostering strong partnerships with various stakeholders in order to implement the LHWP in a socially and environmentally responsible manner. To

achieve this, the LHDA relies on many role players including Members of the Senate whom in exercising their statutory oversight role, are critical in approving the laws that govern the use and protection of the environment, as well as defending and promoting of

national interests. It is therefore crucial for Members of the Senate to have first-hand information and appreciation of the ongoing works undertaken by the LHDA.

During a four-day visit the Honourable Senators were provided with presentations

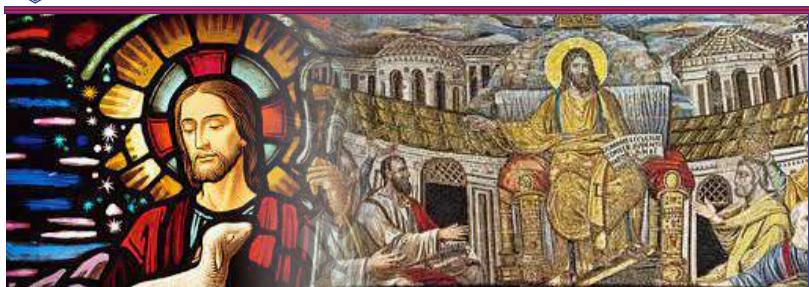

more importantly, measures required to ensure restoration and sustainability of water sources for the project.

The visit also covered 'Muela Hydropower Station where the Divisional Manager for Development and Operations; Mr. Reentseng Molapo wel-

on the LHWP by the LHDA Chief Executive and Management. The presentations covered Phase I compensation issues, Phase II Hydropower Component, and various socio-economic programmes being conducted under Phase II of the Project for the improvement of livelihoods for the communities in Mokhotlong and for Basotho. Members also received an extensive briefing on work done by the Project to ensure protection of the environment and

comded members and provided them with an overview of the 'Muela Hydropower Station, focusing on how the station utilises the water transfer system to generate electricity for Lesotho's needs, as well as providing details on the planned LHWP maintenance and power outage, planned for a six-month period, from October 2024 to March 2025. Members concluded their visit with a tour of the underground powerhouse and its associated installations.

Dinara Djoldosheva Appointed World Bank Resident Representative for Lesotho

The World Bank has appointed Ms. Dinara Djoldosheva as its new Resident Representative for Lesotho. Ms. Djoldosheva brings decades of experience in international development and a vision to help the country tap into its growth potential. As Lesotho navigates challenges ranging from economic inequality to climate resilience, her role will be pivotal in shaping the nation's development path.

Upon her arrival, Ms. Djoldosheva expressed enthusiasm about the opportunities that Lesotho's unique geography and resilient people present. "Lesotho's geography and the

resilience of its people present strong development opportunities. These can be leveraged to create jobs, boost exports,

and attract private sector investment, and promote broader economic participation," she said.

Ms. Djoldosheva's appointment comes at a critical time when the World Bank is reinforcing its partnership with the

Government of Lesotho, aiming to strengthen private sector-led growth, improve human capital, and increase climate resilience. Her role will involve leading the implementation of the World Bank's Country Partnership Framework (CPF), a

strategic document outlining the Bank's priorities and contributions to Lesotho's development.

The World Bank's current portfolio in Lesotho amounts to \$372.4 million, which is distributed across 11 active projects, including nine national projects, one grant, and two regional initiatives. These projects span key sectors such as health, agriculture, energy, water, and job creation—areas crucial to the country's socio-economic transformation.

Ms. Djoldosheva, a Kyrgyz national, joined the World Bank in 1996 as an Operations Officer and has held a variety of roles across Europe, Central Asia, and East Asia Pacific. Her previous assignment as Senior Operations Officer in the Nigeria Country Management Unit honed her expertise in leading complex development programs. Now, in Lesotho, she plans to build on these experiences by fostering deeper collaboration with government officials, stakeholders, and development partners.

As Lesotho continues to pursue ambitious development goals, Ms. Djoldosheva's leadership and the World Bank's support offer new hope for sustainable economic growth, job creation, and enhanced living standards for all Basotho.
